

Changelog

Haldun Köktaş

Last Updated: 13-05-2022

This file contains the notable changes to the data.

New

- Removed "StandardHours", "EmployeeCount" and "EmployeeId" columns.
 - Created train and test sets by 20% with random_state=42.
 - Created two new columns by combining existing ones (and removing).
- ```
(
"JobInvolvement-Performance" = JobInvolvement * Performance,
"Satisfaction" = JobSatisfaction * EnvironmentSatisfaction * WorkLifeBalance
)
```
- Created train and test sets by 20% with random\_state=42.
  - Created two new columns by combining existing ones.

## Changes

- Removed rows that have empty cells.
- Changed "Attrition" column to numeric (0,1).
